

Wildfire Pro
Shops Risk
Reduction
Program shows
property
owners how to
affordably
remove this
kind of wildfire
risk

At Wildfire Pro Shops we are not Firefighters our job is to help property owners make things safer for all our brave firefighters.

The Wildfire Pro Shop Founder is the person that worked with San Diego Fire Marshal to get approved by River Conservancy. SD Fire Rescue is now being awarded Grant Funding to spray CitroTech™ off the side of roads and in homeless communities.

Wildfire Pro Shop
teaches and supplies
CitroTech™ and
equipment to reduce
your wildfire risk
without any negative
environmental impact

Wildfire Pro Shop risk reduction application crews can spray CitroTech™ up into trees and on and around your home during dry risky months.
